Secret1: flag{e43y p4ck37 sn1ff1Ng}

Secret2: flag{a35 15 g00d f5c533441769fbe027441fcb29c745c6}

2.

Task1:

一开始无论输入什么,服务器的 response 都是一致的:

PMRHEZLTOVWHIIR2GAWCE3LFONZWCZ3FEI5CEV3SN5XGOIDVONSXE3TBNVSSA33SEBYGC4 3TO5XXEZBOEIWCE2DJNZ2CEORCKRZHSIDUN4QGY33HNFXCAYLTEBDVKRKTKQRH2

利用工具分析安装包,发现包含里 decode 和 encode 函数尝试用函数解码

获得:

{"result":0,"message":"Wrong username or password.","hint":"Try to login as GUEST"}

使用 GUEST 登录:

得到:

PMRHEZLTOVWHIIR2GAWCE3LFONZWCZ3FEI5CEV3SN5XGOIDVONSXE3TBNVSSA33SEBYGC4 3TO5XXEZBOEIWCE2DJNZ2CEORCKRCVGVBHOMQHAYLTON3W64TEEBUXGICUIVGVAX2QIFJVGV2 FFI6O

根据提示

{"result":0,"message":"Wrong username or password.","hint":"TEST's password is TEMP PASSWD"}

然而,根据提示登录还是不行 发现'_'会被替换为'#' 我们发送的登录账户会变成: username=GUEST&password=TEMP#PASSWD

只有自己修改:

OVZWK4TOMFWWKPKHKVCVGVBGOBQXG43XN5ZGIPKUIVGVAX2QIFJVGV2E 利用 Burp Suite 发送,得到

PMRHEZLTOVWHIIR2GEWCE3LFONZWCZ3FEI5CE43VMNRWK43TEIWCE2LEEI5CEMJZPB4HQ6DYPB4HQ6BCFQRFGZLDOJSXIMJCHIRGM3DBM55WKNBTPFPXANDDNMZTOX3TNYYWMZRRJZTX 2IRMEJWW63TFPERDUML5

{"result":1,"message":"success","id":"19xxxxxxxxxx","Secret1":"flag{e43y_p4ck37_sn1ff1Ng}","money":1}

同时也进入下一个 activity:

Task2:

之后点击 buy flag 会自动发送:

OVZWK4S7NFSD2MJZPB4HQ6DYPB4HQ6BGNVXW4ZLZHUYSM2LTL5TGC23FHUYQ解码后是:

user_id=19xxxxxxxxxxmoney=1&is_fake=1

修改为:

user_id=19300240012&money=10000000000&is_fake=0 重新编码:

 $OVZWK4S7NFSD2MJZGMYDAMRUGAYDCMRGNVXW4ZLZHUYTAMBQGAYDAMBQGAYDAJTJ\\ONPWMYLLMU6TA$

收到:

PMRG2ZLTONQWOZJCHIRFS33VOIQFGZLDOJSXIMRANFZTUZTMMFTXWYJTGVPTCNK7M4YD AZC7MY2WGNJTGM2DIMJXGY4WMYTFGAZDONBUGFTGGYRSHFRTONBVMM3H2IT5

{"message":"Your Secret2 is:flag{a35_15_g00d_f5c533441769fbe027441fcb29c745c6}"}

3.

实现 task1、2 的方法都是修改信息,主要是实现显示我们的学号 Task1 通过后会返回这个,我们修改

{"result":1,"message":"success","id":"19xxxxxxxxxx","Secret1":"flag{e43y_p4ck37_sn1ff1Ng}","money":1}

 $\label{lem:constraint} $$ \{"result":1,"message":"success","id":"19300240012","Secret1":"flag{e43y_p4ck37_sn1ff1Ng} \}","money":1000000000\} $$$

编码:

PMRHEZLTOVWHIIR2GEWCE3LFONZWCZ3FEI5CE43VMNRWK43TEIWCE2LEEI5CEMJZGMYDA MRUGAYDCMRCFQRFGZLDOJSXIMJCHIRGM3DBM55WKNBTPFPXANDDNMZTOX3TNYYWMZRRJZ TX2IRMEJWW63TFPERDUMJQGAYDAMBQGAYDA7I

ID:19300240012

Money:1000000000

flag:Your Secret2 is:flag{a35_15_g00d_f5c53344 1769fbe027441fcb29c745c6}

BUY FLAG

实现 Burp Suite 插件的步骤就是检测是否是要替换的,让后替换成我们希望的。
